### **1. COB DPW Presentation**

Bandalong Litter Traps & Boom Systems

Dave Norton and Jacques Borges, Brockton DPW

A presentation was made of the Bandalong Litter Trap & Boom System by their representative. The DPW is looking to use the system on areas of the city to clean the rivers. It was explained that the system uses natural current in stream to catch trash; only catches floatables; it is a floating surface skimming devise. There is currently a system in the Anacostia River, DC.

A motion was properly made (Enos), seconded (Reilly) and unanimously passed to generally support the proposal.

### **2. Notice of Intent**

Address: Plot 94-1 Summer Street

Applicant: Bay State Gas Co.

Representative: AECOM Technology

The letter from AECOM dated November 18, 2010 was read into the record. Letter requested another onsite. Ms. Nover said that her recommendation to the Commission regarding the monitoring well will not change. The Commission agreed that any order should contain the special condition for monitoring wells. No authorization was issued for a meeting with the consultant and that the members would like to have them answer questions at a public meeting.
